
*Edizione critica delle opere di
Gaetano Donizetti*

(The Critical Edition of the Operas of Gaetano Donizetti)

Gaetano Donizetti (1797-1848) was one of the most productive Italian composers of the 19th century. He wrote in both Italian and French, and his works reflect a period of transition in opera between Rossini and Verdi.

This multi-volume series of books provides critical commentaries in English and the authoritative scores of the composer. The collection is of interest to scholars of voice, musical theater, and the 19th century as well as to a wide variety of researchers and performers. This set of volumes would be an important addition to the music library's core collection.

Multi-volume set

Cost: \$13,600
