
Environmental Microbiology

Environmental Microbiology is a high-profile journal that publishes the most innovative, original, and rigorous research in the field. Available both in print and online, it encompasses the diversity of current research on microbial processes in the environment, microbial communities, and microbial interactions. In order to serve as many researchers as possible, the library would like to purchase the print and electronic versions of the journal.

Journal

Cost: \$10,000*

*Cost reflects a five year subscription, requested by the Libraries in order to ensure continuous access to the journal. Please contact B.J. Johnston, Associate Dean of Collections and Departmental Libraries (bj.johnston@wustl.edu or 314-935-5468) for details.
