

INSPEC Archive, 1898-1968

Users of Washington University Libraries already have access to the INSPEC database covering 1969 to the present day; the *INSPEC Archive* will provide access to all material published in the *Science Abstracts* journals from 1898 to 1968 and will complete our electronic holdings of this journal. The *INSPEC Archive* contains more than 850,000 bibliographic records that cover over 70 years of international scientific and technical literature in physics, electrical engineering, electronics, computing and control engineering. In addition to articles, the database includes dissertations, conference proceedings, books, and reports.
