

Journals of the Federation of European Microbiological Societies (FEMS), Backfiles, 1985-1996

The Federation of European Microbiological Societies (FEMS) journals are an important resource to researchers in biology, environmental science, microbiology and other departments at Washington University. Researchers frequently request online access to older issues of these journals.

This FEMS collection of journals includes *Immunology and Medical Microbiology*, *Microbiology Ecology*, *Microbiology Letters*, and *Microbiology Reviews*.

For more information, go to: <http://www.blackwellpublishing.com/backfiles/> and search for "FEMS Microbiology".
